The Company's primary sources of revenue are fees and commissions earned from various limited partnerships and other investment vehicles. These fees represent a portion of the management and performance fees charged by the managers of these entities. The Company records these fees when earned.

The Company made an election to be taxed as a limited liability company under the Internal Revenue Code. Accordingly, there is no provision for income taxes included in the accompanying financial statements except for state franchise taxes and fees. All income and expenses are reported by the Company's members on their respective tax returns.

The Company accounts for uncertain tax positions in accordance with Financial Accounting Standards Board Accounting Standards Codification ("ASC") Topic 740-10, Accounting for Uncertainty in Income Taxes. FASB ASC Topic 740-10 establishes that a tax position taken or expected to be taken in a tax return is to be recognized in the financial statements when it is more likely than not, based on the technical merits, that the position will be sustained upon examination. The Company's returns from 2015 to 2019 are subject to review by the Internal Revenue Service.

Cash and Cash Equivalents

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 - BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair Value Measurement

The Company follows ASC 820, Fair Value Measurements and Disclosures which defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value. The Company does not hold any positions besides cash as of December 31, 2019.

NOTE 2 - NET CAPITAL AND MINIMUM CAPITAL REQUIREMENTS

Pursuant to the net capital provisions of Rule 15c3-1 of the Securities Exchange Act of 1934, the Company is required to maintain a minimum net capital, as defined under provision. At December 31, 2019, the Company had net capital and net capital requirements of \$257,552 and \$44,831 respectively. The Company's net capital ratio (aggregate indebtedness to net capital) was 2.61 to 1. According to Rule 15c3-1, the Company's net capital ratio shall not exceed 15 to 1.

NOTE 3 - RELATED PARTY TRANSACTIONS

The Company has an expense sharing agreement with its Parent in which the Company pays all expenses related to the use of the Parent's facility, employees and other operating expenses directly allocable to the Company. For the year ended December 31, 2019, the Company incurred \$1,535,198 to its Parent in connection with the expense sharing agreement. Included in this amount is \$989,412 for salaries and wages and \$7,800 in rent expense. The Parent leases office space on a yearly basis with 30 days written notice of termination. At December 31, 2019, the Company has a payable to its Parent of \$25,836. The credit of (\$119,645) on the income statement is a result of the accrual fluctuation throughout the year of what is owed to our registered representatives.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 4 - FINANCIAL INSTRUMENTS, OFF-BALANCE SHEET RISKS AND UNCERTAINTIES

The Company introduces client accounts to unrelated investment managers. The Company does not take discretionary control over any account. The Company receives a portion of the fees generated by the investment managers. The Company bears the risk of financial failure of these investment managers. If the investment managers should cease doing business, the amounts due from these investment managers could be subject to forfeiture.

The Company is subject to litigation and claims arising in the ordinary course of business. The Company accrues for such items when a liability is both probable and the amount can be reasonably estimated. In the opinion of management, the results of such pending litigation and claims will not have a material effect on the results of operations, the financial position, or the cash flows of the Company.
